ALWAYS REMEMBER!

IT'S NOT ABOUT IDEAS.
IT'S ABOUT MAKING IDEAS
HAPPEN.

– SCOTT BELSKY, CO-FOUNDER BEHANCE

THE COMPANY

Crowntrack Limited is a fleet management solutions provider based in Kenya. We have a passionate and skilled team of professionals who have excelled in the field of asset management and monitoring, logistics and mobile fleet management.

We specialise in the emerging markets within the entire supply chain to bring you value and reliability with our wide range of products tailor-made to fit the exact customer needs.

Our solutions are based on the latest technologies in the market. We are pioneers of new products in the East African Market. We have proven experience in deployment of the following technologies: IoT Connectivity, CANBus Solutions, BLE Sensors technology, OTA Hardware among other new technologies.

Fuel Monitoring

This is a real time fuel level monitoring system deployed depending on the type of fleet unit (Prime Movers, Reefer Gensets, Trailer Tanks, Stationary Diesel Tanks). Fuel level sensors are installed inside the fuel tank and continuously send data to the tracking system. The system has advanced algorithms for computing fuel consumption per trip, fuel filling and fuel thefts. Real time charts and dashboards helps to visualize the data to the fleet manager.

FEATURES

Real Time Fuel filling
and theft alerts

Daily/On demand
reports

CANBus Fuel
